

Flame Resistant Coveralls

White FR Coveralls

- When worn over thermally protective coveralls, can reduce predicted body burn injury
- Meets the requirements of NFPA 2113
- It offers strength, wet or dry, over other traditional Flame Resistant disposable garments
- It is breathable, making this a cool and comfortable garment to wear
- Features collar, zipper and sewn seams

Pyrolon® Plus 2 is the perfect solution for work environments where environmental and health related contaminants are present.

Pyrolon® Plus 2 must be worn over thermally protective coveralls, such as woven Nomex, in environments where flash fire is a concern.
